AVerTV PLUG & WATCH

I ♥ TV on My Mac & PC

Compatible with Windows 7 | Mac | SNUGTV www.SnugTV.com

AVerTV PLUG & WATCH is just like its name! It saves your time and strength from CD installation. Just insert the stick, you have all need there! The ID design nominated AVerTV PLUG & WATCH supports even the latest Aluminium Apple Remote. Startup the fun of watching TV on your Mac can not only be done through the dock icon, also the Apple Remote or just insert the advanced TV tuner.

The complied AVerTV for Mac allows user to plan personal recording schedule, to pause, rewind or fast-forward live TV, and utilize PIP mode to watch TV and video at the same time. The exclusive "Video Optimizer" provides astonishing side-by-side comparison of video adjustment to show the clear, sharp and vivid video color. Moreover, the new AVerTV for Mac has a smart file organizer to recognize and sort recordings and screenshots into related folder, such as "Movies", "Music" or "Pictures".

The new AVerTV for Mac makes TV viewing much more convenient, flexible and easier than ever. AVerTV PLUG & WATCH is ready for both Snow Leopard & Windows 7.

Introduction of AVerTV for Mac

Intuitive and User-friendly Interface

AVerTV for Mac has an intuitive UI for use without learning. Whether you want to watch TV, record shows, TimeShift or playback videos, it will be your best mate.

Full-functional On-screen Menu

One click to schedule the recordings, view EPG and play recordings from the on-screen menu.

EPG & Scheduled Recording

You can monitor the coming programs from the clearly demarcated EPG of AVerTV for Mac. Still better, you can add the one you love to the recording schedule just from the EPG.

PIP - One Screen with Two Programs

AVerTV for Mac has PIP function to prevent you from missing your favorite live shows when watching videos at the same time.

Exclusive Technology - Video Optimizer

No more obscure pictures! With the advanced color enhancement technology, AVerTV for Mac provides a remarkable side-by-side comparison of video adjustment.
